

This schedule applies to: Local Government Agencies

Scope of records retention schedule

This records retention schedule covers the public records of all local government agencies relating to functions including: air quality authorities; animal services; assigned counsel; cemetery records; communications; conservation districts; coroners and medical examiners; electric utilities; emergency services; facility and property management; fairs; fire and emergency medical; housing authorities; irrigation utilities; juvenile services; land use planning, permits and appeals; library; licenses, permits, fees and taxes; noxious weed control; parks and recreation; port districts; prosecuting attorney; public works engineering; sewer and water system documentation; social services; solid waste management; surface water drainage documentation; transit authorities; and utilities accounting.

This records retention schedule is to be used in conjunction with the other approved schedules that relate to the functions of the agency.

Disposition of public records

Public records covered by records series within this records retention schedule must be retained for the minimum retention period as specified in this schedule. Washington State Archives strongly recommends the disposition of public records at the end of their minimum retention period for the efficient and effective management of local resources.

Public records designated as Archival or Permanent must not be destroyed. Records designated as Potentially Archival must be appraised by the Washington State Archives before disposition. Public records must not be destroyed if they are subject to ongoing or reasonably anticipated litigation. Such public records must be managed in accordance with the agency's policies and procedures for legal holds. Public records must not be destroyed if they are subject to an existing public records request in accordance with RCW 42.56. Such public records must be managed in accordance with the agency's policies and procedures for public records requests.

Revocation of previously issued records retention schedules

All previous versions of the Local Government General Records Retention Schedule (LGRRS) are revoked. Local government agencies should take measures to ensure that the retention and disposition of public records is in accordance with current, approved records retention schedules.

Authority

This records retention schedule was approved by the Local Records Committee in accordance with RCW 40.14.070 on December 16, 2008.

GLOSSARY

Archival	<i>Public records which possess enduring legal and/or historic value and must not be destroyed. Local government agencies must either transfer these records to Washington State Archives or retain and preserve these records according to archival best practices until such time as they are transferred to Washington State Archives.</i>
Essential	<i>Public records that local government agencies must have to maintain or resume business continuity following a disaster. The retention requirements for these records may range from very short-term to archival, but are necessary for an agency to resume its core functions following a disaster.</i> <i>Security backups of these public records must be created and deposited with Washington State Archives in accordance with RCW 40.10.</i>
OFM	<i>Public records which have been designated as “Office Files and Memoranda” for the purposes of RCW 40.14.010.</i>
OPR	<i>Public records which have been designated as “Official Public Records” for the purposes of RCW 40.14.010.</i>
Permanent	<i>These records must not be destroyed. Permanent records which are not designated as archival or potentially archival must remain in the agency’s legal custody.</i>
Potential Archival Value and Potentially Archival	<i>Public records whose enduring legal and/or historic value must be appraised by Washington State Archives on an individual basis. Public records will be reviewed for sampling/selective retention by archivists from Washington State Archives. Records not selected for retention by Washington State Archives may be disposed of after appraisal.</i>
Record Series	<i>A group of records, performing a specific function, which is used as a unit, filed as a unit, and may be transferred or destroyed as a unit. A records series may consist of a single type of form or a number of different types of documents that are filed together to document a specific function.</i>
